

RAN PEARL P. DIOCENA

4th Year Computer Science

Bachelor of Science in Computer Science · University of San Agustin
2023 – Expected 2027 · 4th Year (BSCS 4-A)

09487372788 rdiocena@usa.edu.ph Iloilo City, Philippines

ABOUT ME

Fourth-year BS Computer Science student at the University of San Agustin with hands-on training in Python programming, SQL data analysis, networking fundamentals, cybersecurity awareness, and cloud and AI concepts. Holds six industry certifications from Cisco Networking Academy, DataCamp, and Simplilearn. Seeking an On-the-Job Training (OJT) placement in any computer science or IT-related role, such as software development, database and data work, networking, cybersecurity, or IT support, where I can apply my technical skills, learn from industry professionals, and contribute to a team.

CERTIFICATIONS

- **Cisco Python Essentials 1** — Cisco Networking Academy · Python fundamentals: variables, data types, control structures, functions, and modules
- **SQL Associate** — DataCamp · Passed a practical exam in Hotel Operations: cleaned messy data, joined tables, and analyzed customer service data using SQL
- **Networking Basics** — Cisco Networking Academy · IP addressing, routing, network protocols, and how devices and network services communicate
- **Introduction to Cybersecurity** — Cisco Networking Academy · Common cyber threats, online safety, and protecting accounts and data
- **Introduction to Cloud Computing** — Simplilearn · Core cloud computing concepts
- **Introduction to Modern AI** — Cisco Networking Academy · Foundations of modern artificial intelligence

TECHNICAL SKILLS

- **Programming: Python**
- **Databases and Data:** SQL, data cleaning, table joins, data analysis
- **Networking:** IP addressing, routing, network protocols
- **Security:** Cybersecurity fundamentals, safe data and account practices
- **Emerging Tech:** Cloud computing concepts, modern AI concepts
- **Tools:** Git / GitHub, VS Code

ACADEMIC HONORS

- **Senior High School (STEM) · Iloilo City National High School**
- **Grade 11: With Honors (1st and 2nd Semester)**
- **Grade 12: With Honors (1st Semester); With High Honors (2nd Semester)**

PROJECTS

Offline Mobile Application for Real-Time Filipino Sign Language (FSL) Translation (Ongoing Undergraduate Thesis) · [2026 – Present]

- Developing, with a team of five, an offline Android app that translates 130 Filipino Sign Language gestures into text and speech in real time, to help bridge communication between Deaf and hearing Filipinos
- Serving as researcher and documentation member of the thesis team, supporting the research and the written thesis proposal.
- Research covers sign-gesture recognition using MediaPipe Holistic and a BiLSTM model, with system quality to be evaluated using ISO/IEC 25010 and the Technology Acceptance Model

IPv4/IPv6 Address Retrieval App (Cisco DEVASC Social Coding Activity) · [2026]

- Worked in a three-member team to build an application that retrieves a user's IPv4 and IPv6 addresses from a REST API

Smart Peer Tutoring System (Academic Group Project) · [2025-2026]

- Served as part of the documentation team for the project
- Helped develop a system that connects students with peers for academic assistance and collaborative learning
- Focused on improving access to peer-based tutoring and supporting better learning outcomes
- Applied basic software development concepts in building the system as part of an academic group requirement
